Avoid breathing vapors or mist. Avoid contact with eyes, skin, or clothing. Wash thoroughly after handling.

8. EXPOSURE CONTROLS, PERSONAL PROTECTION

Eyes:

Safety glasses or goggles. Coverall chemical splash should be used when the possibility exists for eye contact caused by splashing or spraying of material.

Skin:

Impervious clothing, such as gloves, apron, boots, or whole bodysuit made from butyl rubber, as appropriate.

Ventilation:

Sufficient to maintain vapor concentration below TLV.

Respiratory

A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or cannister may be permissible under circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection.

See Section 2 for Exposure Limits.
