## Blue Wave Detergents

---

### 25-I

The 25-I liquid solution in a dilution of one to four ounces per gallon of water will:

- Provide superior wetting action
- Remove the most persistent soils
- Disperse insoluble soils
- Emulsify greasy soils
- Rinse free!

Blue Wave solutions are 100% environmentally safe. 25-I was tested by an independent laboratory, in accordance with the Federal Hazardous Substance Act, and was shown to exhibit no toxic or corrosion characteristics. Specific characteristics are as follows:

- Not a primary skin irritant
- Not toxic by the dermal route
- Not toxic by the inhalation route
- Neutral pH
- Non-corrosive
- Not flammable

### 25-I

Aluminum  
Brass  
Ceramics  
Chromium  
Copper  
Glass  
Iron  
Magnesium  
Nickel  
Plastics  
Printed Circuit Boards  
Steel Zinc

Finishing Compounds  
General Contaminants  
Greases  
Metal Chips  
Oils  
Oxides  
Soldering Flux  
Waxes
