SeaWash-8 Product Fact Sheet
pH-7 Parts Cleaning Solution
Manufactured by WARREN CHEMICAL CORPORATION, Robert, LA

CLEANING EFFECTIVENESS

Use cold or hot – No heater required.

Safe for multi-material parts, prevents rusting of parts and equipment.

Cleans a wide range of soils, including oil, grease, carbon, paints, inks and most adhesives.

Unique wetting action cleans 'to the surface' leaving parts cleaner than solvents do.

Unlike solvents that degrade over time, via soil contamination, SeaWash-8 retains its potency.

COST EFFECTIVENESS

If you own your solvent tank, convert it now to low cost, safe, aqueous SeaWash-8.

Evaporation rate is much less than solvents which lowers cost of replenishment.

Use fluid indefinitely. Just replenish when evaporation occurs.

Self-maintenance eliminates costly monthly service contracts.

SeaWash-8 concentrate lowers freight charges.

Eliminates manifest record keeping and reduces liability insurance.

WORKER HEALTH & SAFETY and ENVIRONMENTAL COMPLIANCE

Biodegradable, Non-flammable, Non Hazardous – totally safe for workers.

Prevents harm to internal organs caused by solvent fume inhalation and skin absorption.
No more chemical burns, cracked skin and chapped hands.

Contains no harmful cleaning additives, such as organic solvents, acids, caustics or terpenes.

Contains no HAP's, ODC's, or GWC's and negligible VOC's.

Minimizes generation of liquid hazardous waste: no solvent storage, transportation or disposal.
