Product Data

UNIVERSAL HEAVY DUTY LIQUID STEAM CLEANING COMPOUND

UNIVERSAL Heavy Duty Liquid Steam Cleaning Compound is a moderately alkaline, compound designed to be used on all surfaces, painted and unpainted, with only minimal effect on aluminum and zinc. It will remove soil, oils and hard to remove greases from all metal and concrete surfaces.

Because **UNIVERSAL Steam Cleaning Compound** is in liquid form, it is instantly soluble in water, giving trouble-free operation and no clogged coils. It also has a built-in corrosion inhibitor that leaves a protective coating on exposed surfaces.

BENEFITS

1. Fights Corrosion
2. No Clogged Coils
3. Safe on all Surfaces
4. Trouble-Free Operation
5. Economical, High Dilution Rate

USED BY

- | | |
|---------------------------|------------------------------|
| 1. Farms | 6. Newspapers |
| 2. Bakeries | 7. Auto Dealers |
| 3. Industrial Plants | 8. Oil Refineries |
| 4. School Bus Garages | 9. Farm Implement Dealers |
| 5. Food Processing Plants | 10. Transportation Companies |
