FORMULA 815MX General Purpose Detergent/Degreaser

- ENVIRONMENTAL CLEANING
- EQUIPMENT CLEANING/DEGREASING
- INTERIOR AIRCRAFT MAINTENANCE
- VEHICLE MAINTENANCE

KEEP OUT OF REACH OF CHILDREN

FORMULA 815MX is an effective general purpose aqueous-based detergent that is biodegradable and safe to use on all surfaces that are not harmed by water. **FORMULA 815MX** is a blend of detergents, wetting agents and surfactants that act to rapidly, but safely, clean surfaces of everyday common soils, industrial grease/oil, and aircraft interior surfaces. This product contains NO solvents, acids, or free caustic.

DIRECTIONS FOR USE

Common light soil: Mix 2 ounces of **FORMULA 815MX** (1:64) with water and apply manually with cloth/sponge, spray bottle or wet mop.

Medium soil: Depending on soil, surface and operating temperature, mix 4 ounces (1:32) to 8 ounces (1:16) **FORMULA 815MX** with water and apply manually with cloth/sponge, spray bottle, pressure washer or brush. Rinse as needed.

Heavy soil: Depending on soil, surface and operating temperature, mix 8 ounces (1:16) to 24 ounces (1:5) **FORMULA 815MX** with water and apply using foam applicator, pressure washer, brush or spray bottle. Rinse as needed.

Consult your Brulin representative for recommendations on the other uses and applications of **FORMULA 815MX**.

USDA authorization A1

Formula 815MX is a commercial product, not intended for home use.

CAUTION

Contains 2-Aminoethanol. Direct contact may result in eye irritation. Prolonged contact may cause skin irritation. Ingestion may result in gastrointestinal irritation and burns to mouth and throat.

FIRST AID:

Eyes -- Flush with large amounts of cool water for at least 15 minutes, lifting upper and lower lids occasionally. Get medical attention.

If swallowed -- Do not induce vomiting. Keep warm and quiet. Get prompt medical attention.

Skin -- Flush with mild soap and water. If irritation persists, consult a physician.

If inhaled (and affected by vapors) -- Remove to fresh air.
