

# Scout Everywhere™

Floor and Hard Surface Cleaner

## What it does.

For just pennies per gallon, Everywhere allows you to replace several cleaners (e.g. neutral and degreasing cleaner, all purpose cleaner, drain maintainers and odor eliminators, etc. ). Try Everywhere on the toughest quarry or ceramic tile to deep clean pores and grout. It totally cleans hard surfaces...with no residue left behind. On finished floors, you can buff immediately and get a brilliant shine without additional products. Rinse water is safe down the drain where it continues to clean, eliminating buildup, clogs and odors, too.

## How to use it.

For floor cleaning, just add 1 oz. per gallon of warm water in a mop bucket or auto scrubber.  
For general cleaning, just add 1 oz. per gallon of warm water in a trigger sprayer.

## What's in it?

A fast working enzyme package with pH neutral cleaning action that breaks down dirt without harming surface or finish.

## What's not in it?

Live bacteria or spores.  
Hazardous, caustic or toxic ingredients.  
Acid or Alkaline that can cause skin irritation.  
Inferior petroleum-based surfactants.  
Butyls, phosphates or d'limonene.

## How to get Everywhere.

Gallon (4/case): Order item 3101  
Pail (5 gallons): Order item 3105
