**INSTRUCTIONS:** For best results, rinse surface to remove excess soil before cleaning. For heavy soil, apply product and let stand for 1 - 2 minutes before agitating with a nylon brush or other scrubber. For normal to light cleaning, may be applied using spray bottle, sponge or mop. Increased dwell time will reduce cleaning effort or the need to agitate. Thoroughly rinse with water to remove soil, avoid streaking and leave surface residue free. May be use on all "water-safe" surfaces including tile, vinyl, walls, laminates, marble and plexiglass.
