

# CLEANING LABORATORY EVALUATION SUMMARY

SCL #: 2016  
DateRun: 10/17/2016  
Experimenters: George Liang, John Truong, Sabrina Apel  
ClientType: Cleaning Equipment Mfr  
ProjectNumber: Project #1  
Substrates: Ceramics, Plastic, Stainless Steel, White Board  
PartType: Coupon  
Contaminants: Hucker's Soil  
Cleaning Methods: Manual Wipe  
Analytical Methods: Gravimetric

Purpose: To evaluate three supplied cleaning products for Hucker's soil removal from various surfaces.

Experimental Procedure: Three cleaners (Catholyte NaOH, Anolyte Hypochlorous, and 409 All Purpose Cleaner) were received "Ready to Use" (RTU). Pre-weighed coupons (three ceramic, three painted steel, three stainless steel, three plastic) were coated with one gram of Hucker's soil, at room temperature, using a hand held swab. The contaminated coupons were air dried for 2 hours at room temperature and weighed again to determine the amount of soil added.

Three coupons of each substrate were placed in the SLW unit and a KC Wypal reinforced paper towel was attached to the cleaning sled and treated with two sprays of cleaning solution. Each coupon was sprayed twice with the same cleaning solution. The cleaning unit was run for 20 cycles (equivalent of 30 seconds of cleaning). Coupons were dried and final weights were recorded. Efficiencies were calculated and recorded.

Results: The three supplied products on average removed over 93% of the Hucker's soil on each substrate using the manual wipe unit.

Substrate				
Cleaner	Initial wt	Final wt	% Removed	% Average
Ceramic				
Catholyte	0.2477	0.0126	94.91	93.54
	0.2520	0.0184	92.70	
	0.2998	0.0210	93.00	
Anolyte

Summary:

<b>Substrates:</b>	Ceramics, Plastic, Stainless Steel, White Board				
<b>Contaminants:</b>	Hucker's Soil				
<b>Company Name:</b>	<b>Product Name:</b>	<b>Conc.:</b>	<b>Efficiency:</b>	<b>Effective:</b>	<b>Observations:</b>
Annihilare	Free (Catholyte)	100	94.01	<input checked="" type="checkbox"/>	
Annihilare	Annihilyte General Purpose Cleaner	100	95.84	<input checked="" type="checkbox"/>	
Clorox Company	Formula 409 All Purpose Cleaner	100	93.83	<input checked="" type="checkbox"/>	

Conclusion:

The three supplied products on average removed over 93% of the Hucker's soil on each substrate using the manual wipe unit.
