

CLEANING LABORATORY EVALUATION SUMMARY

SCL #: 2001

DateRun: 08/17/2001

Experimenters: Jason Marshall

ClientType: General

ProjectNumber: Project #1

Substrates: Other

PartType: Coupon

Contaminants: Rubber

Cleaning Methods:

Analytical Methods:

Purpose: Information request

Experimental Procedure: Substrates: Pavement
Search for a cleaning agent/solvents which are to be used for dissolving rubber markings on airport runways (tire markings). Would you have or know what product is available in the market?

Results: Database search performed based on past trials and vendor supplied information. The following Products have been identified as possible rubber cleaners.

| | |
|-----------------------|--------------------------|
| Substrates: | Runway (asphalt) |
| Contaminants: | Rubber |
| Product Mfr | Product Name |
| Buckeye International | Shopmaster LpH |
| Ecolink | Safe Strip |
| ISP Technologies | Ship Shape Resin Cleaner |
| Envirosolutions | Bio T Max |
| Dynamold | DS-104 |
| Chem Tech Solutions | Westech CT 1550 |
| Du Pont | DBE |
| Inland Technologies | EP 921 |
| Inland Technologies | Citrisafe |

Summary:

Conclusion: If you want more information on any of the listed products or are interested in evaluating a product, please contact the lab.
