Conclusion:

Please note: The Toxics Use Reduction Institute’s Surface Solutions Laboratory can supply MSDSs and any available Technical Data Sheets for all chemical cleaners tested. Not all cleaners tested are ranked equally for environmental, health and safety considerations; some are selected for comparative purposes only. The most accurate, up-to-date information concerning cleaning chemistries can be obtained at the Institute’s Technology Transfer Center (TTC) using Database TOMES: Toxicological, Occupational, Medical and Environmental Series.
