

CLEANING LABORATORY EVALUATION SUMMARY

SCL #: 2010

DateRun: 12/21/2010

Experimenters: Johnny Le

ClientType: General

ProjectNumber: Project #1

Substrates: Ceramics, Fiberglass, Chrome

PartType: Coupon

Contaminants: Films, Soaps

Cleaning Methods: Manual Wipe

Analytical Methods: Gravimetric

Purpose: To evaluate the supplied products for bathroom cleaning using manual cleaning

Experimental Procedure: The supplied cleaning products were used at the recommended concentration. Prewedged chrome, ceramic and fiberglass, coupons were coated with SSL Soil 1 (Bathroom soap scum: All-in-one shampoo and conditioner 28.6%, Dry skin lotion 21.4%, Liquid hand soap 21.4%, Liquid body wash 14.3%, Deodorant bar soap 7.2% and water 7.1%.) using a hand held swab and allowed to dry for 24 hours at room temperature. The contaminated coupons were weighed again to determine the amount of soil added.

Three coupons were placed into a Gardner Straight Line Washability unit. A Wypall X60 reinforced wipe was attached to the cleaning sled and soaked with 5-7 sprays of cleaning solutions. Each coupon was sprayed 7-10 times with the same cleaning solution. The solution was allowed to penetrate for 30 seconds followed by cleaning in the SLW unit for 20 cycles (~33 seconds). At the end of the cleaning, coupons were wiped once with a dry paper towel. Final weights were recorded and efficiencies were calculated and recorded.

Products were selected based on kitchen cleaning needs and health and safety options.

Results: The MD Stetson PC116 was the only product to remove more than 85% of the bathroom soap scum mixture. The client's supplied product DfE 401 had the second highest efficiency at 83%.The table lists the amount of soil added, the amount remaining and the efficiency for each coupon cleaned.

Cleaner	Initial wt	Final wt	% Removed	Overall Average
TMI DfE 401 Fiberglass

Summary:

Substrates:	Ceramics, Fiberglass, Chrome				
Contaminants:	Films, Soaps				
Company Name:	Product Name:	Conc.:	Efficiency:	Effective:	Observations:
EnviroX LLC	H2Orange2	12	78.04	<input type="checkbox"/>	
Cogent Environmental Solutions	Ecogent General All Purpose Cleaner	3	58.63	<input type="checkbox"/>	
Gemtek Products	SC Bathroom Cleaner	100	57.55	<input type="checkbox"/>	
Next-Gen Supply Group	PC 116 Non-acid restroom and shower cleaner	2	87.45	<input checked="" type="checkbox"/>	

Conclusion:

A second bathroom soil test will be conducted on additional products to find additional effective bathroom cleaners.
