

# CLEANING LABORATORY EVALUATION SUMMARY

SCL #: 2002  
 DateRun: 11/13/2012  
 Experimenters: Loc Nguyen, Anni Geng  
 ClientType: Cleaner Manufacturer  
 ProjectNumber: Project #1  
 Substrates: Plastic, Steel, Porcelain  
 PartType: Coupon  
 Contaminants: Greases, Food  
 Cleaning Methods: Manual Wipe  
 Analytical Methods: Gravimetric  
 Purpose: To evaluate four supplied products for all purpose cleaning following GS 37 requirements

Experimental Procedure: The three products were used at full strength as recommended. Prewedged porcelain, painted steel and plastic coupons were coated with DCC-17 using a hand held swab and allowed to dry for 24 hours at room temperature. The contaminated coupons were weighed again to determine the amount of soil added. Three coupons were placed into a Gardner Straight Line Washability unit. A Kimberly-Clark Wypal reinforced paper towel was attached to the cleaning sled and soaked with 2-3 sprays of cleaning solutions. Each coupon was sprayed 1-2 times with the same cleaning solution. The cleaning unit was run for 20 cycles (~33 seconds). At the end of the cleaning, coupons were wiped once with a dry paper towel. Final weights were recorded, efficiencies were calculated and recorded. Chemistries Evaluated: Cleaner: 1. Common Good & Company All Purpose Cleaner; 2. 7th Generation ALL Purpose; 3. Formula 409

Results: All three products were NOT effective at removing the PCC-17 from the three surfaces using manual wiping. The Product 3 resulted in the lowest efficiency, removing just over 78% of the DCC-17. The table lists the amount of soil added, the amount remaining after cleaning and the calculated efficiency for each coupon cleaned.  
 A- Porcelain; B- Painted steel; C-Plastic

Cleaner	Sub	Initial	Final	%Removed	Ave % Removed
1	A	0.0271	0.0050	80.44	77.55

3	C	0.0163	0.0070	57.06	
3	C	0.0220	0.0002	99.09	

Summary:

<b>Substrates:</b>		Plastic, Steel, Porcelain			
<b>Contaminants:</b>		Greases, Food			
<b>Company Name:</b>	<b>Product Name:</b>	<b>Conc.:</b>	<b>Efficiency:</b>	<b>Effective:</b>	<b>Observations:</b>
Seventh Generation	Free & Clear All Purpose	100	78.55	<input type="checkbox"/>	
Clorox Company	Formula 409 All Purpose Cleaner	100	83.50	<input checked="" type="checkbox"/>	
Common Good & Co	All purpose cleaner RTU	100	81.94	<input checked="" type="checkbox"/>	

Conclusion:

None of the three products were found to remove more than 85% of the DCC-17 from various surfaces using manual wiping. The supplied product worked as well as the conventional cleaner and the on-the-market green cleaning product.
